Programming languages:
- ➢ JavaScript
- ➢ TypeScript

Front-end Technologies:
- ➢ Angular
- ➢ React.js
- ➢ Bootstrap
- ➢ Tailwind CSS

Back-end Technologies:
- ➢ Node.js
- ➢ Express.js
- ➢ RESTful APIs

Databases:
- ➢ MongoDB
- ➢ MySQL

PROFILE

Enthusiastic and dedicated aspiring Full Stack Web Developer with a strong foundation in JavaScript, Node.js, Express.js, Angular, React.js, Bootstrap, Tailwind, MongoDB, and MySQL. Eager to leverage academic knowledge in real-world web development projects. Quick learner with a passion for staying up-to-date on industry trends and best practices. Excited to contribute to a dynamic development team and grow as a professional in the field.

PROJECTS

1.Countries Info [Live link] [GitHub]

- **Technologies used: Angular-17 | RxJs | angular/router | Bootstrap-5.**
- Developed a dynamic web application, "Countries Info," leveraging the Restcountries API to provide **comprehensive data** on global countries.
- Implemented a dynamic search bar using Angular and the Restcountries API, enhancing user navigation and engagement with **real-time data**.

2.Blood Harmony [Live link] [GitHub]
- **Technologies used: Angular-17 | RxJs | Angular material | Tailwind CSS**
- Developed a web application focused on blood donation compatibility to encourage **life-saving contributions**.
- Designed a **user-friendly interface** for patients and donors to input blood groups, dynamically checking compatibility and delivering clear messages on the **suitability for donation**.

CERTIFICATIONS

1. **The Web Developer Bootcamp -** [Certificate]
   Issuing Body: Udemy
   Date of Completion: February 2022
